

RELATIVE AGREEMENT FOR PLACEMENT AND LICENSURE

Michigan Department of Human Services

The requirements for foster home licensing include:

- ☐ Home Study – A certification worker will conduct a licensing study to assess your family, parenting, ability to plan long term for the relative child and to ensure that your home meets licensing standards and is a safe environment for foster children. The process needs to be completed within 90 days of placement.
- ☐ Training – All adult caregivers in the household must complete a minimum of 12 hours of training before licensure. Once licensed, there will be additional annual training requirements.
- ☐ Fingerprints – All caregivers living in your home will be fingerprinted to conduct a criminal history check. Other adults living in the household will have to submit to a check of Michigan State Police criminal history records. There will be a review of child abuse and neglect records for all adults living in your home. The Sex Offender Registry will also be checked for adults and youth who are members of the household or give the home as their address.
- ☐ References – You must provide references from three unrelated persons who can attest to your character and suitability for becoming a licensed foster home.
- ☐ Health of Family – All members of your household must provide medical statements as part of the licensing process.
- ☐ Discipline - Corporal punishment (any type of hitting, including spanking) may never be used with foster children, including foster children who are related to you.
